

PVC External Lubricant L-G70S

Item No.: L-G70S

Main constituent: Solid lubricant for neutral, high molecular weight, polyfunctional fatty acid composite ester

Technical Specification :

Item	Specifications
Appearance	White, nearly tasteless flaky, granular or powdery product, non-toxic
Purity	$\geq 99\%$
Density	0.95
Melting point (°C)	53-58
Flash point (°C)	≥ 240
Acid value KOHmg/g	≤ 15.0
Iodine value I ₂ g/100g	≤ 3.0
Volatility (105°C/2 hours), %	≤ 2.0

Product Properties

PVC external lubricant;

Suitable for transparent products;

Improve demould effect

Improve free flow performance and non-stick performance.

Applications

PVC aggregate processing;

PVC plate processing

PVC calendered film processing

User Notice

Additive amount: 0.2-0.6%(part)

Stabilizing effect: Good intermiscibility with metal salt stabilizer.

Packages: Plastic woven bag 25kg/bag; carton 20kg/carton.

Shelf life: One year
